Description

Job Summary

Sodexo is seeking an individual to provide technical support for cosmetic raw material and finished product analysis and characterization through the design and utilization of analytical methods. They will have knowledge in chromatography (LC/GC), wet chem (i.e. titration), spectroscopy (i.e. IR, UV) and physical characterization (i.e. rheology). They will have an awareness of instrument maintenance. The individual must have excellent communication skills, and the interpersonal skills to work within a fast-paced team environment that requires the ability to handle multiple demands. Background in analytical chemistry is desired.

Duties and Responsibilities

Perform bench laboratory work in support of analytical measurements, while adhering to all pertinent safety guidelines.

Run the analytical methods to support raw material and finished goods characterization.

Maintain the instrumentation in good working order, ensuring that they are operating correctly.

Maintain a clean and safe work environment.

Document data in a lab book and the LIMS adhering to the site quality system, generating LIMS reports where appropriate.

Key Requirements

Candidate must have at minimum an associate degree in science ideally in chemistry or related physical/biological sciences. The ideal candidate should also have one to two years of practical laboratory experience preferably in an industry setting such as analytical contract lab.

A knowledge in chromatographic (e.g. HPLC, UHPLC, GC), spectroscopic (e.g., UV, IR) analysis, wet chem (e.g. titration), sample preparation and clean up techniques (e.g. SPE, SPME, liquid-liquid extraction) and an awareness of analytical data systems (e.g. ChemStation, Empower) is desired.

Communication skills, electronic, oral, and written, are essential, as well as the ability to write technical reports using Microsoft applications.

Sodexo offers a competitive compensation package. All qualified applicants will receive consideration for employment and will not be discriminated against on the basis of race, color, religion, sex, sexual orientation, national origin, age, disability, protected veteran status, or other protected class in accordance with applicable federal, state, and local laws.

Employment is subject to verification of pre-employment drug-screening results and background investigation.
